Appraisal • Strategy • Delivery

Press Release

FOR IMMEDIATE RELEASE

3 December 2008

## BBP Appoints Professional Staff as Part of Business Development Plan

BBP Regeneration continues to expand both the range and depth of services on property and economic development. Following planned growth and responding to an increased workload, we have made two appointments on the property and development management sides of the business.

**Andy Smith** has been appointed as a Senior Surveyor in our London Office. Andy is a specialist in financial analysis and development management and joins from Berkeley Commercial with previous residential experience at Barratt and Taylor Wimpey, whilst **Robbie Landsburgh** has joined our London office as an Assistant Surveyor.

These Appointments are part of the planned expansion of our Development Management capability. The expansion is progressing ahead of schedule, due to the challenging economic climate and an increased demand for our approach and services.

### Andy Smith

Andy's appointment expands, enhances and diversifies our capacity in financial analysis, modelling and development appraisal. This area of our business has proved particularly effective in helping both public and private sector clients - as well as other stakeholders - develop realistic, implementable delivery plans. This area is becoming even more crucial in the current testing economic climate. We offer the highest standard of services to current and prospective clients in developing their land and property strategies, and Andy's appointment will enable this to continue.

Andy has over 7 years UK and USA experience in the house building and commercial development sectors. This background, sound commercial knowledge and technical capabilities enables us to provide an astute commercial focus to our consultancy services and articulate our strategies in a way which builds confidence amongst public sector organisations and engages private sector interest.

Andy has initially been concentrating on developing the financial model and strategy for the £2.8 billion redevelopment of Shoreham Harbour near Brighton and Hove.

### Robbie Landsburgh

Robbie has joined BBP's graduate development programme. He is qualified both in Law and Estates Management with a particular interest in the impact of major sporting events on urban regeneration. Since joining BBP, Robbie has been involved on the redevelopment of Dover Waterfront. He will also be involved in the regeneration of Fish Island & Hackney Wick and in Ailsa Street, Tower Hamlets both in London.

---

### About BBP Regeneration

BBP Regeneration is a specialist property and regeneration consultancy. Based in London, we provide advice at all stages of the development process from core research & forecasting, through to options analysis, strategy formulation, financial & economic appraisal, and delivery.

We act for major developers and landowners, as well as Government departments, the Regional Development Agencies, English Partnerships and Local Authorities.
